

C **G7** **C**
When they wave the flag and bang the drum

Am **F** **G7**
You gotta hope out loud that peace will come

Am **F** **C**
If you just sit silently and wait

Am **G7** **C**
Then before you know it's gonna be too late

C **F** **G7** **C**
You gotta hope out loud

C **F** **G7** **Am**
You gotta raise your voice

F **G7** **C**
Let people know they have a choice

C **F** **G7** **C**
You gotta hope out loud

C **F** **G7** **Am**
You gotta let them know

F **G7** **C**
Hey that's not the way you're gonna go

C **G7** **C**
Now the old men send the young to war

Am **F** **G7**
You know we've seen this all before

Am **F** **C**
Well it won't work now it didn't work back then

Am **G7** **C**
But the deadly cycle begins again

C **F** **G7** **C**
You gotta hope out loud

C **F** **G7** **Am**
You gotta make it plain

F **G7** **C**
There'll be no more killing in your name

C **F** **G7** **C**
You gotta hope out loud

C **F** **G7** **Am**
So loud they hear

F **G7** **C**
Gonna bring down apathy and fear

C **G7** **C**
Now it's good to pray you know it soothes the soul

Am **F** **G7**
It will ease your mind it will make you whole

Am **F** **C**
But a silent prayer will only do

Am **G7** **C**
When there's no one else involved but you

C **F** **G7** **C**
You gotta hope out loud

C **F** **G7** **Am**
You gotta pray for peace

F **G7** **C**
So loud the echos never cease

C **F** **G7** **C**
You gotta hope out loud

C **F** **G7** **Am**
For all you're worth

F **G7** **C**
If we save ourselves we can save the earth
